## Thesis Committee

**Chris Jackson**

Chief Advisor, School of Design

**Shaun Foster**

Associate Advisor, School of Design

**Nancy Ciolek**

Associate Advisor, School of Design

**Evan Selinger**

Associate Advisor, Department of Philosophy

Introduction

**Problem Statement**

## Defining the problem

Can a mobile application designed using user-centric research influence young adults to **limit their smartphone usage** in social gatherings and situations?

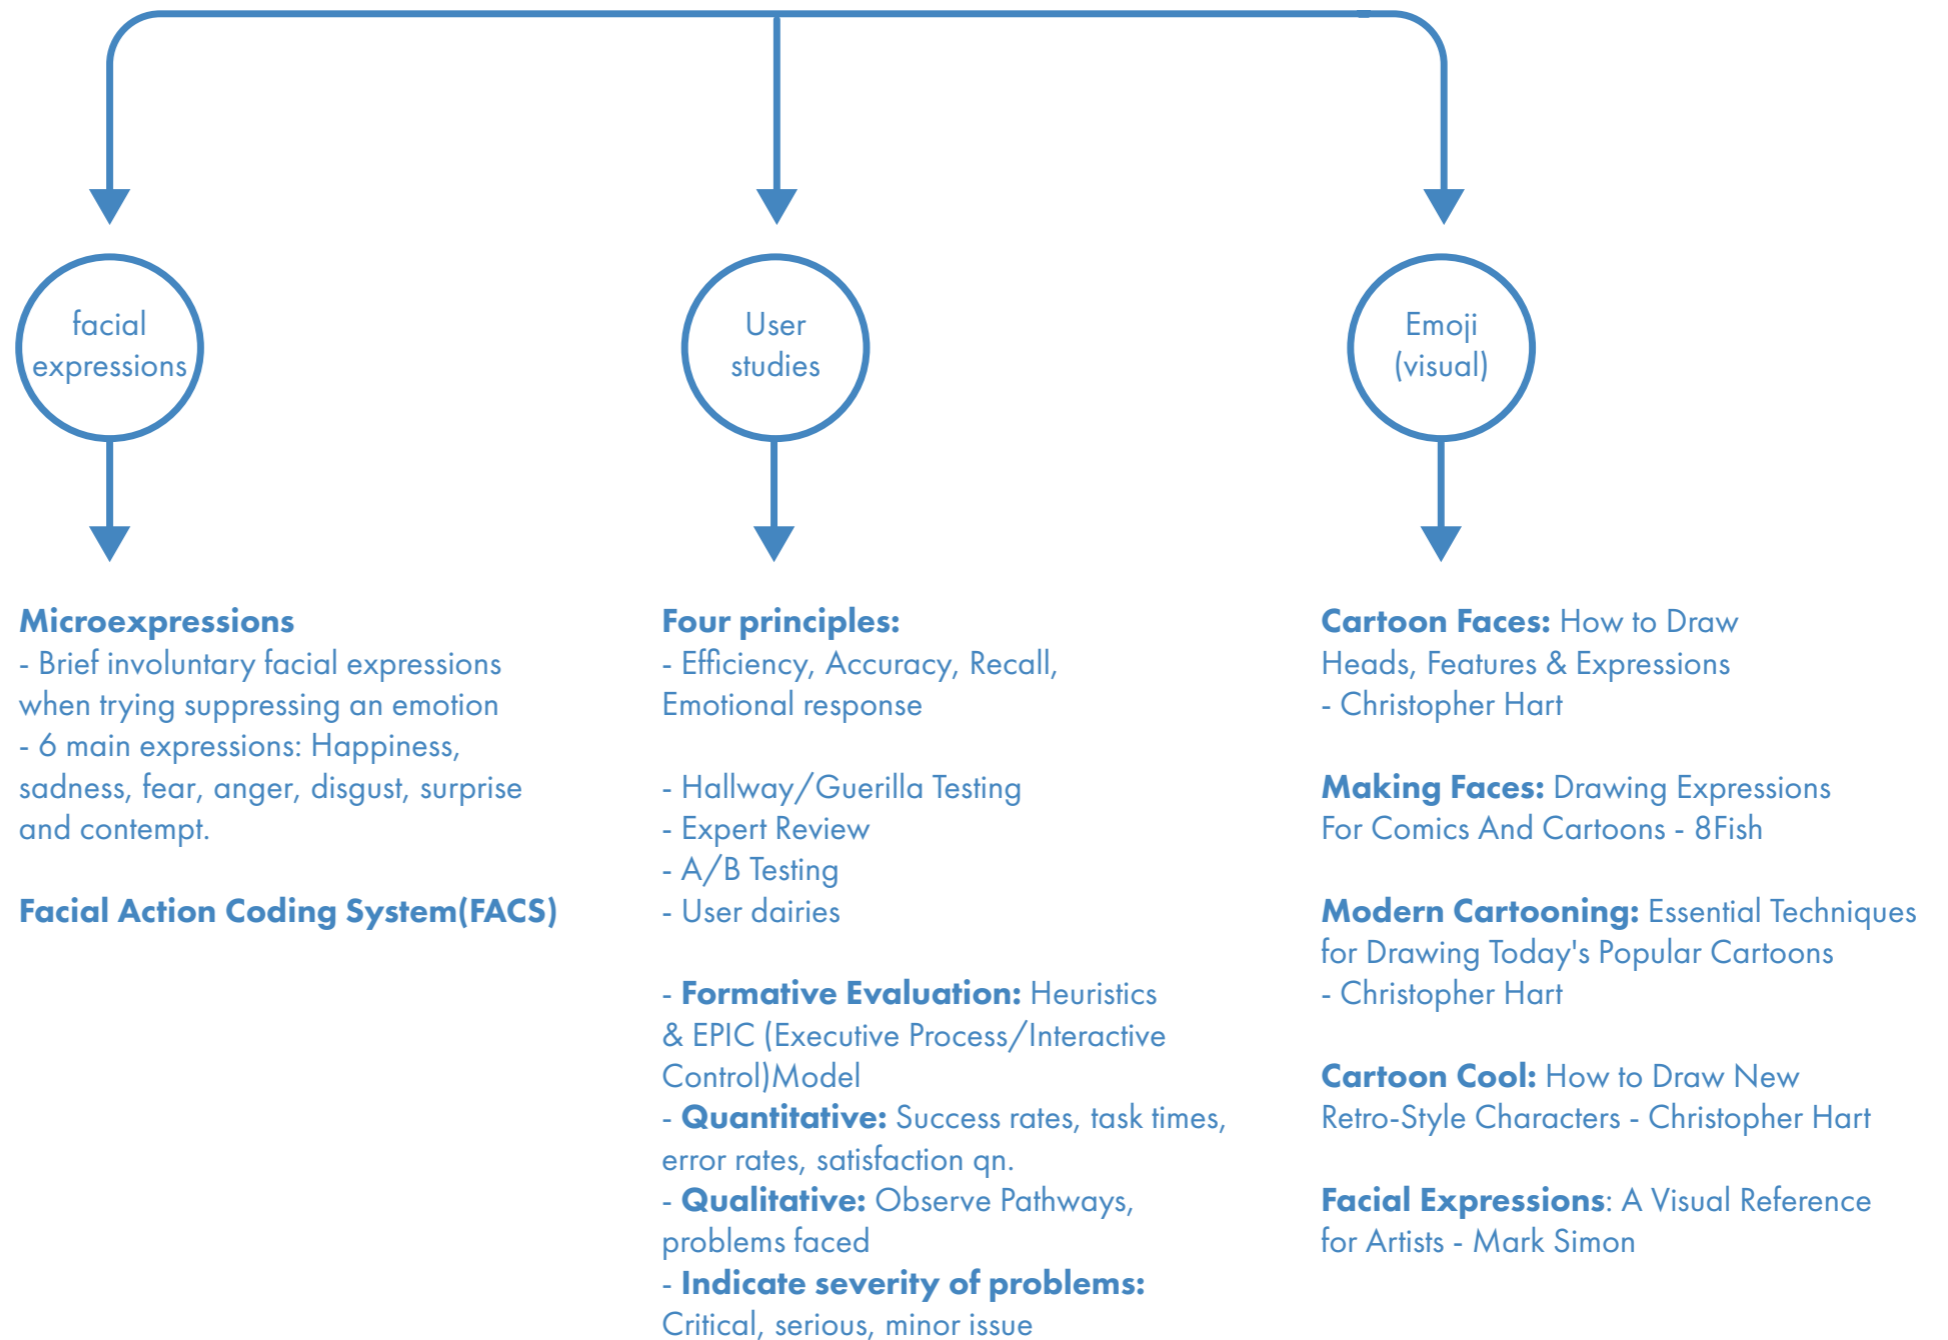

- Introduction
- Problem Statement

- Implications
- Timeline
- Bibliography

## Comparative Analysis

|   | Existing Products | Restricts Use | Sends Alerts | User Generated prompts | Influences behaviour | Mobile App |
|---|-------------------|---------------|--------------|------------------------|----------------------|------------|
|  <p>RescueTime (Website)</p>       | ✓                 | ✓             | ✗            | ✓                      | ✗                    |            |
|  <p>Lunecase (Hardware)</p>       | ✗                 | ✓             | ✗            | ✗                      | ✗                    |            |
|  <p>Checky (App)</p>             | ✗                 | ✗             | ✗            | ✗                      | ✓                    |            |
|  <p>21 Habits (App)</p>          | ✗                 | ✓             | ✗            | ✓                      | ✓                    |            |
|  <p>Moments (App)</p>            | ✓                 | ✓             | ✗            | ✗                      | ✓                    |            |
| <div style="background-color: #0056b3; color: white; padding: 5px; display: inline-block;"><b>TIMEOUT APP</b></div> | ✓                 | ✓             | ✓            | ✓                      | ✓                    |            |

## Asset List

- Interface design for the iPhone app (10 screens)
- Welcome/Splash Screen
- Logo Design
- Design emoji's (6 different expressions)
- Icons for the app (TBD)
- Motion Graphics/Promotional Video (90 secs)
- Comparative charts for challenges (3)
